

Datasheet

Water Sensor Air

Part No: 100211

About the product

The battery-operated water sensor warns you about leaking water and thus helps to prevent major water damage. Thanks to Loxone Air technology, this small sensor can be placed anywhere.

- Warns immediately when water is detected
- Perfect for utility rooms, basements, etc.
- Place anywhere thanks to innovative Loxone Air Technology

Technical data

Power supply	CR2032 battery
Interfaces	Loxone Air: 868MHz (SRD Band Europe), 4 channels available max. Power 15.1mW e.r.p. 915MHz (ISM Band Region 2), 10 channels available max. Power 13.2mW internal antenna
Sensor	contact pins
Ambient temperature	0 ... 55°C / 32 ... 131°F
Battery lifetime	up to 2 years
Humidity	max. 95% r.H. (non condensing)
Learn button	can also be used as a push button

Connection diagram

Product features

Colours	Blue: RAL5012
Finish	Matte

Weight & dimensions

Net weight	22g
Total weight	45g
Product dimensions	74.3x28.5x13.6mm / 2.92x1.12x0.53" (LxWxH)
	<p>The technical drawing shows the device from a top-down perspective and a side view. The top-down view indicates a length of 74,3 mm and a height of 28,5 mm. The side view indicates a width of 13,6 mm. The device is shown with the "LOXONE" logo and a battery compartment on the top surface.</p>
Pack size	122x80x22mm / 4.80x3.15x0.87" (LxWxH)

Certifications & Standards

Safety rating	IP20
----------------------	------

Installation must be carried out by a qualified electrician in accordance with the relevant regulations.
